Every year we conduct two exams of full marks 40 for the first half and 60 full marks for the second half exam which becomes 100 full marks in total. We have taken the first half annual examination from 12th of August to 18th of August and most of the students have done very well. And second half

annual examination was conducted on 18th of October and we have final result on 26th of October.

We have good enough result from our students and most of the students have done well and came out with flying colors. Some of them haven't done well and we have decided to let them repeat the same class since we have lots of pressure from the Hostler in Kathmandu stating that our students coming from the village are not able to cope with the students in Kathmandu.

THE WORK OF SCHOOL MANAGEMENT COMMITTEE:

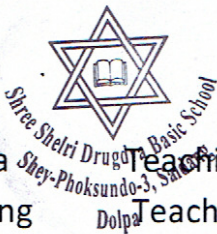

There weren't any changes in the SMC this year. All the members are same which were formed last year. There was no any special works from the SMC but they all took very active part in most of the school activities and functions. Reroofing was all done through the School Management committee and all the responsibility was taken by the chairman Te- Gyaltsen Gurung. For the improvement of drinking water facility of the school they have approached the local Gov of Saldang and we are hopeful that they will do something along with the drinking water project of the village. Two room blocks was also made under the responsibility of SMC but due to lack of timber it is not complete yet.

As part from the villagers contribution, they are always giving 50kg of cow dung for the staffs and 25kg of cow dung for the students. They were helpful to school whenever we need their help and support.
